

Leading Through Partnership

Lead | Learn | Connect

This forum brings together Principals from across Victoria's specialist schools to engage in timely updates, sector relevant research, and Department-led initiatives. The agenda offers valuable insights into current policy directions, student pathways, administrative workload, and curriculum reform, with space to connect and collaborate with your colleagues.

We encourage you to participate fully, ask questions, share your reflections, and take this time to engage with the broader system context shaping your work.
