

Sunbury and Macedon Ranges Specialist School recently hosted members from the Sunbury Rotary Club and Peter and Sally from Dream Cricket who donated two Dream Cricket kits to our school. Dream Cricket is designed to give all students the opportunity to play cricket-based activities.

A group of our students had the amazing chance to work with Peter and Sally in group sessions to experience the fun of cricket and some of the skills needed to participate in a game on our basketball court. Students, staff and members from the Rotary Club enjoyed the morning, especially the competitiveness of the game, and the interaction between each other.

It was amazing to see students encouraging each other, cheering everyone on to do their best and try their hardest. We look forward to many hours of fun in the coming years as we put the Dream Cricket kits to good use and thank Rotary for their generous donation.
